Gli obiettivi formativi del corso sono definiti secondo le linee guida del Quadro Comune Europeo di Riferimento per le Lingue (QCER).

L'obiettivo principale del corso è il consolidamento delle strutture del sistema linguistico inglese (livello B2) al fine di sviluppare competenze comunicative, sia scritte che orali, per poter interagire in modo appropriato su un'ampia varietà di tematiche e per la comprensione di testi economici in lingua inglese.

L'apprendimento delle strutture linguistiche sarà supportato da didattica frontale (DE) e interattiva (DI), con esercitazioni mirate anche all'acquisizione di terminologia specifica relativa all'ambito di studio. Questo permetterà agli studenti e alle studentesse di comprendere ed elaborare testi in lingua inglese, inclusi quelli di natura tecnica.

Le strategie didattiche adottate mirano a favorire lo sviluppo dell'autonomia nello studio della lingua. A tal fine, verranno utilizzati materiali autentici (scritti, orali e digitali) selezionati in base al livello di studenti e studentesse e finalizzati al potenziamento progressivo delle quattro abilità linguistiche.

L'esame può essere sostenuto sia in forma scritta che in forma orale. L'esame orale consiste in un colloquio con la Commissione sui contenuti dell'insegnamento. L'esame in forma scritta consiste nello svolgimento di un test composto da 31 domande. Per ogni domanda lo studente deve scegliere una delle 4 possibili risposte. Solo una risposta è corretta e, in caso di risposte errate o mancanti, non sarà attribuita alcuna penalità. Rispondendo correttamente a tutte le 31 domande, si conseguirà la lode.

Oltre alla prova d'esame finale, il percorso prevede attività di didattica interattiva sincrona e prove intermedie che consentono alle studentesse e agli studenti di monitorare il proprio apprendimento, attraverso momenti di verifica progressiva e consolidamento delle conoscenze.

La partecipazione alle attività di didattica interattiva sincrona consente di maturare una premialità fino a 2 punti sul voto finale, attribuiti in funzione della qualità della partecipazione alle attività e dell'esito delle prove.

Per accedere alle prove intermedie è necessario aver seguito almeno il 50% di ogni ora di didattica interattiva.

Le prove intermedie possono consistere in un test di fine lezione o nella predisposizione di un elaborato. Le prove intermedie si considerano superate avendo risposto correttamente ad almeno l'80% delle domande di fine lezione. In caso di prove intermedie che prevedano la redazione di un elaborato, il superamento delle stesse ai fini della premialità sarà giudicata dal docente titolare

dell'insegnamento.

I punti di premialità, previsti per le prove intermedie, sono sommati al voto finale d'esame solo se la prova d'esame è superata con un punteggio pari ad almeno 18/30 e possono contribuire al conseguimento della lode.

Le modalità d'esame descritte sono progettate per valutare il grado di comprensione delle nozioni teoriche e la capacità di applicazione delle stesse e consentiranno di valutare il livello di competenza e l'autonomia di giudizio maturati dalla studentessa e dallo studente. Le abilità di comunicazione e la capacità di apprendimento saranno valutate anche attraverso le interazioni dirette che avranno luogo durante la fruizione dell'insegnamento.

Nella sezione Informazioni Appelli, nella home del corso, per ogni anno accademico vengono fornite le date degli appelli d'esame.

Le attività di didattica interattiva sincrona sono calendarizzate in piattaforma nella sezione Class.

Le attività di ricevimento di studenti e studentesse sono calendarizzate nella sezione Ricevimento Online.

Le attività di Didattica Interattiva (TEL-DI) consistono, per ciascun CFU, in 2 ore erogate in modalità sincrona su piattaforma Class, svolte dal docente anche con il supporto del tutor disciplinare, e dedicate a una o più tra le seguenti tipologie di attività:

- sessioni live, in cui il docente guida attività applicative, stimolando la riflessione critica e il confronto diretto con gli studenti tramite domande in tempo reale e discussioni collaborative;
- webinar interattivi, arricchiti da sondaggi e domande dal vivo, per favorire il coinvolgimento attivo e la co-costruzione della conoscenza;
- lavori di gruppo e discussioni in tempo reale, organizzati attraverso strumenti collaborativi come le breakout rooms, per sviluppare strategie di problem solving e il lavoro in gruppo;
- laboratori virtuali collettivi, in cui il docente guida esperimenti, attività pratiche o l'analisi di casi di studio, rendendo l'apprendimento un'esperienza concreta e partecipativa.

Tali attività potranno essere eventualmente supportate da strumenti asincroni di interazione come per esempio:

- forum;
- wiki;
- quiz;
- glossario.

Si prevede l'organizzazione di almeno due edizioni di didattica interattiva sincrona nel corso dell'anno accademico.

Si precisa che il ricevimento degli studenti, anche per le tesi di laurea, non rientra nel computo della didattica interattiva.

Le attività di Didattica Erogativa consistono, per ciascun CFU, nell'erogazione di 5 videolezioni della durata di circa 30 minuti. A ciascuna lezione sono associati:

- una dispensa (PDF) di supporto alla videolezione oppure l'indicazione di capitoli o paragrafi di un e-book di riferimento, scelto dal docente tra quelli liberamente consultabili in piattaforma da studentesse e studenti;
- un questionario a risposta multipla per l'autoverifica dell'apprendimento.

In linea con i descrittori di Dublino, i risultati di apprendimento attesi sono i seguenti:

- Conoscenza e comprensione: Gli studenti e le studentesse dovranno dimostrare di conoscere le principali strutture della lingua inglese.

- Capacità di applicare conoscenza e comprensione: Gli studenti e le studentesse dovranno dimostrare di saper utilizzare consapevolmente le strutture linguistiche apprese in contesti comunicativi appropriati.
- Autonomia di giudizio: Gli studenti e le studentesse dovranno mostrare la capacità di trasferire le conoscenze acquisite in diverse situazioni, adattando il proprio uso della lingua ai contesti specifici.
- Abilità comunicative: Gli studenti e le studentesse dovranno essere in grado di esprimersi in modo chiaro e corretto, utilizzando il lessico e le strutture grammaticali in maniera adeguata.
- Capacità di apprendimento: Gli studenti e le studentesse dovranno dimostrare buone competenze nell'apprendimento della lingua, supportate dalle strategie didattiche adottate e dall'esposizione a materiali autentici.
